

Reporting to:	Trust Board – May 2014
Title	Board Assurance Framework update
Sponsoring Director	Chief Executive
Author(s)	Head of Assurance
Previously considered by	Risk Committee (May 14), Operational Risk Group (Feb 14), Audit Committee (Mar 14), Trust Board (Jan 14)
Executive Summary	<p>The Board needs to be able to provide evidence that it has systematically identified the Trust’s objectives and managed the principal risks to achieving them. Typically, this is achieved via the Board Assurance Framework (BAF) document and an embedded risk management approach.</p> <p>(i) BOARD ASSURANCE FRAMEWORK Attachment 1 - Board Assurance Framework Summary This summary shows each risk is categorised by colour according to the current risk matrix</p> <p>Attachment 2 - Board Assurance Framework The BAF has been updated since the last presentation to Trust Board. Changes to since the last presentation are indicated in highlighted text. These reflect changes since March and have been updated to reflect the revised corporate objectives Some additional assurances have also been added.</p> <p>The full 2014/15 Board Assurance Framework lists the controls in place and sources of assurance, with the lead Director for each risk.</p> <p>Attachment 3 - BAF Associated Action Plans A BAF is required to have an action plan. However, there are individual plans for most of the risks on the BAF. Rather than list every item, a schedule of related action plans has been compiled.</p>

<p><input type="checkbox"/> Receive <input checked="" type="checkbox"/> Review</p> <p><input type="checkbox"/> Note <input checked="" type="checkbox"/> Approve</p>	<p>Recommendation</p> <ul style="list-style-type: none"> ▪ To review and approve and to consider if any additional assurances are necessary to assure the Board that the risks to the strategic objectives are being properly managed.

Board Assurance Framework - Summary - May 2014

Key : ↑ Improvement ↓ Deterioration = No change

QUALITY AND SAFETY – reduce harm, deliver best clinical outcomes & improve patient experience through quality improvement strategy

If we do not deliver **safe care** then patients may suffer avoidable harm and poor clinical outcomes and experience (RR415)

If we do not implement our **falls** prevention strategy then patients may suffer serious injury (RR 96)

PERFORMANCE STANDARDS - Develop transition plan, with supporting mitigations & contingencies that ensures the safety & sustainability of challenged clinical services

Risk to sustainability of clinical services due to potential shortages of key clinical staff (859)

PERFORMANCE STANDARDS - Address the existing capacity shortfall & process issues to consistently deliver national healthcare standards

If we do not achieve safe and efficient **patient flow** and improve our processes and capacity and demand planning then we will fail the national quality and performance standards (RR 561)

WORKFORCE – Develop our leaders & promote staff engagement to make our organisation a great place to work through our people strategy

If we do not get good levels of **staff engagement** to get a culture of continuous improvement then staff morale & patient outcomes may not improve (RR 423)

SERVICE RECONFIGURATION – Develop sustainable long term clinical services strategy for the Trust to deliver our vision of future healthcare services through our Future Fit programme.

If we do not have a clear **clinical service vision** then we may not deliver the best services to patients (RR 668)

FINANCIAL AND INVESTMENT STRATEGY - (i) develop transition plan that ensures financial sustainability & addresses liquidity pending outcome of Future Fit (ii) Develop robust Investment Strategy to modernise equipment & estate

If we are unable to resolve our (historic) shortfall in **liquidity** & the structural imbalance in the Trust's **Income & Expenditure** position then we will not be able to fulfill our financial duties & address the modernisation of our ageing estate & equipment (670)
