Executive Summary	<p>As identified last month, the NHS Midlands and East SHA have introduced a Provider Management 'performance reporting template', to be completed and submitted on a monthly basis. The submissions are 'in shadow' for the remainder of 2011/12, beginning with performance for the month of December.</p> <p>There are separate templates covering Governance, Financial Risk Rating, Financial Risk Triggers, Contractual Risks and Quality. There is also a set of 'Board Statements' to be completed to provide the necessary and appropriate assurances.</p> <p>The templates for February have been completed based on the data that is available within the necessary timescales and are attached. The templates are 'in shadow' for the remainder of this year in part to allow Trusts to identify any data/information gaps and resolve these moving forward. The precise detail and metrics contained within the templates may also be amended as we move into 2012/13.</p> <p>Discussions to consider how this new requirement and template dovetails with the on-going development of the Trust's current Performance Report are continuing.</p>
Recommendation	Trust Board is asked to NOTE the performance for January and APPROVE its submission to the SHA within the agreed deadlines (29 th February).
