 POPULATION SERVED 500,000

 TURNOVER £326M

VISION

The Shrewsbury and Telford NHS Trust (SaTH) will be working with all our staff to better understand the actions needed for us to become the **safest and kindest** organisation in the NHS.

LEADERSHIP

We want to empower and develop our people to ensure we have exemplary, inspirational and innovative **leaders** in the future.

MISSION

We want to be the **healthiest population** on the planet. Half a million people walk through our hospital doors every year so we have a wonderful opportunity to help improve the lives of all of our population.

TRUST VALUES

The Trust's **Values** – Proud To Care, Make It Happen, We Value Respect and Together We Achieve - drive our behaviour.

OUR PEOPLE

Focus on developing our **people** as everyone makes a contribution to the care our patients and families receive.

HOW WE WILL DELIVER CHANGE

Change is already being delivered at SaTH through the Trust's partnership with the Virginia Mason Institute (VMI) and the introduction of lean methodology. We have now taken ownership of this and have **launched the Transforming Care Institute**. The Institute has been created to develop and celebrate the innovations, ideas, changes and successes our teams are generating.

Service Transformation

The current configuration of our hospital services is not fit for purpose. Brave decisions have to be made about future of our hospitals so we can create two balanced and vibrant sites that will provide the **safest and kindest** care for the communities we serve.

Patients First

The **patients and their families** are why we are here. Everything we do should be centred around them.
