

17-1203 Trust Information Systems

1. Does your trust use a Personal health record/patient portal

No

2. Does your trust use a TIE (Trust Integration Engine)

No

3. Does your trust use a Health Information Exchange

No

4. Does your trust use a Clinical Portal (single organisation alternative to EPR)

We do have a clinical portal but this has been developed by our in-house Team and so has no contract.

5. Does your trust use a E-Rostering (staffing) e.g. Clarity/HCL new bus

Under Section 43 of the Act, it is the view of The Shrewsbury and Telford Hospital NHS Trust that contractual information is exempt from disclosure as releasing this information would prejudice our abilities as a public authority to operate competitively within a commercial market for the provision of agency services. This is because our e-rostering system was bought outright as a whole.

Specifically, releasing such information would reveal to potential contractors the price breakdown that has been paid by the Trust and thereby reduce our ability in future to negotiate prices that offer the best value to the public purse. The Trust has considered the public interest test and given the potential burden on the public purse has assessed that the public interest in disclosing this information is not outweighed by the public interest in safeguarding the commercial interests of the Trust.

6. Does your trust use a system for Corporate Scheduling

No

7. Does your trust use a Population health management system if yes please could you answer the following: (example suppliers are EPR providers (Cerner, Allscripts, Epic etc), integration-led (Graphnet, Orion, ISC etc) and PHM specialists (e.g. MedeAnalytics)

No

Commercially Sensitive Information

Under Section 43 of the Act, it is the view of The Shrewsbury and Telford Hospital NHS Trust that the value or a contract is exempt from disclosure as releasing this information would prejudice our abilities as a public authority to operate competitively within a commercial market for the provision of agency services.

Specifically, releasing such information would reveal to potential contractors the price breakdown that has been paid by the Trust and thereby reduce our ability in future to negotiate prices that offer the best value to the public purse. The Trust has considered the public interest test and given the potential burden on the public purse has assessed that the public interest in disclosing this information is not outweighed by the public interest in safeguarding the commercial interests of the Trust.
