The holder of this letter has a diagnosis of obstructive sleep apnoea and has been prescribed a CPAP machine on advice from their medical team. It is important this is used whenever sleeping and consequently will need to be used whenever travelling. It is recommended to be transported as hand luggage to prevent potential damage during the flight. This device does not contain any parts or materials known to cause or interfere with the safe operation of a commercial aircraft.

Yours sincerely

Cardio-Respiratory Department
