

# Stay healthy - Be safe in the sun

Symptoms, Screening and Staying Healthy

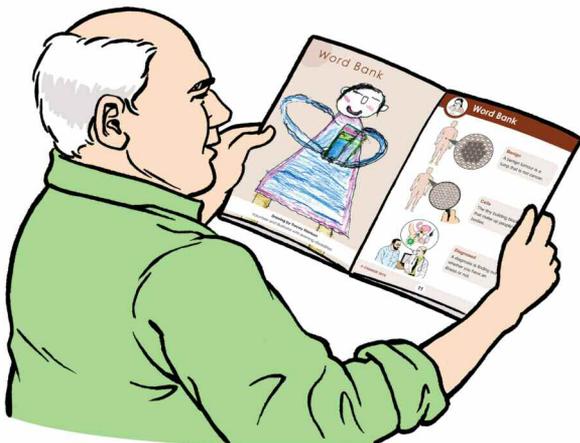

# Introduction

This booklet uses easy words and pictures to help you get information about cancer.

You might want someone to help you look at the booklet so you can talk about it.

There is a Word Bank at the back of the booklet to help with hard words. Any words in **bold** you can find in the Word Bank.

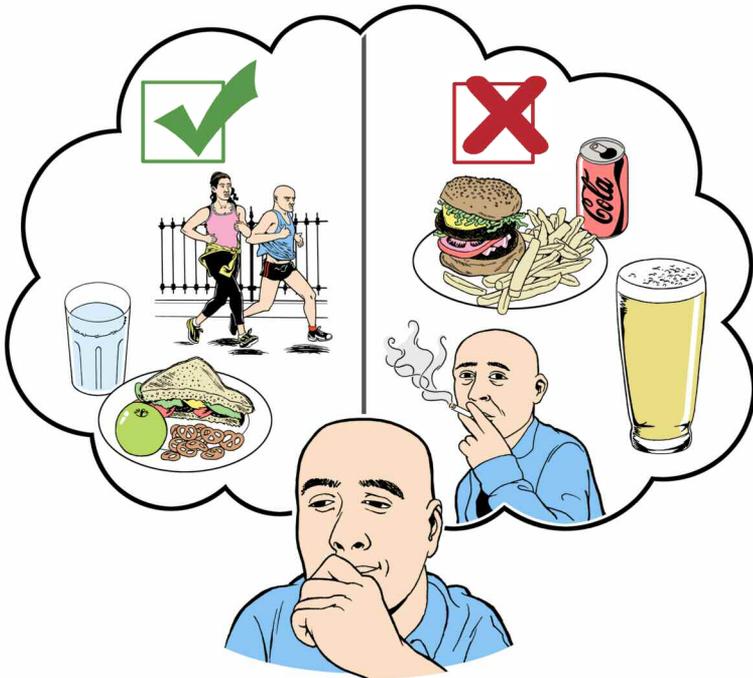

This booklet can help you learn about cancer. But this is not the same as talking to your doctor. If you are worried about your health, you should talk to a doctor or nurse.

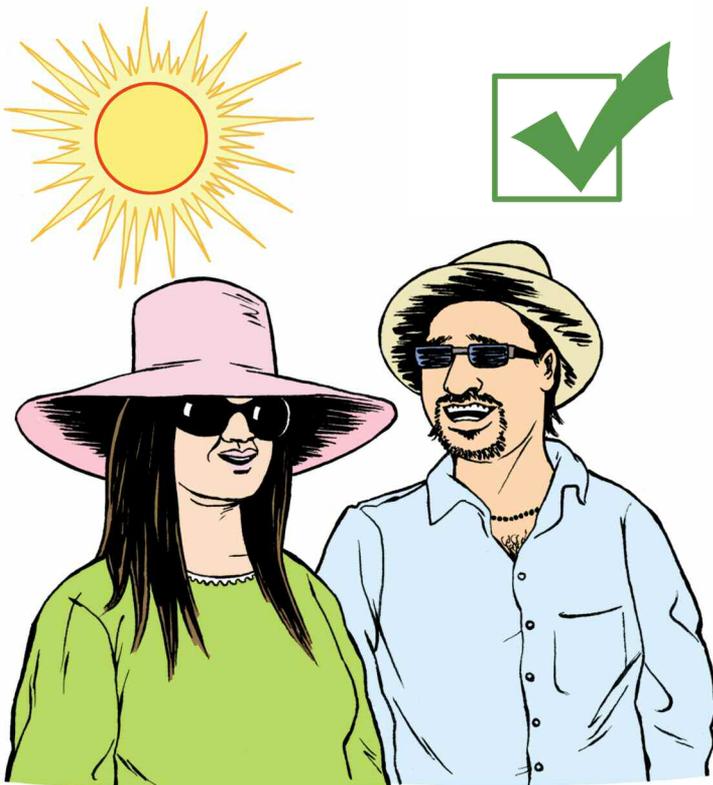

# Stay healthy - Be safe in the sun

Making **changes** in your life to help you stay **healthy**

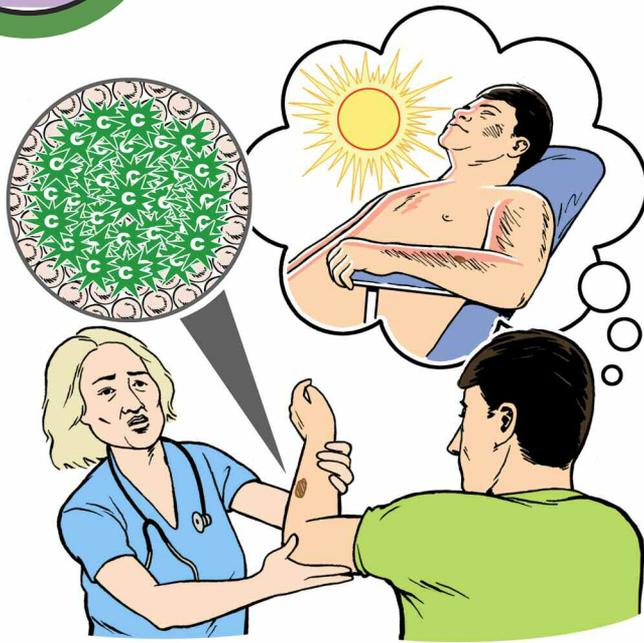

You can make changes to your life that will make you less likely to get cancer.

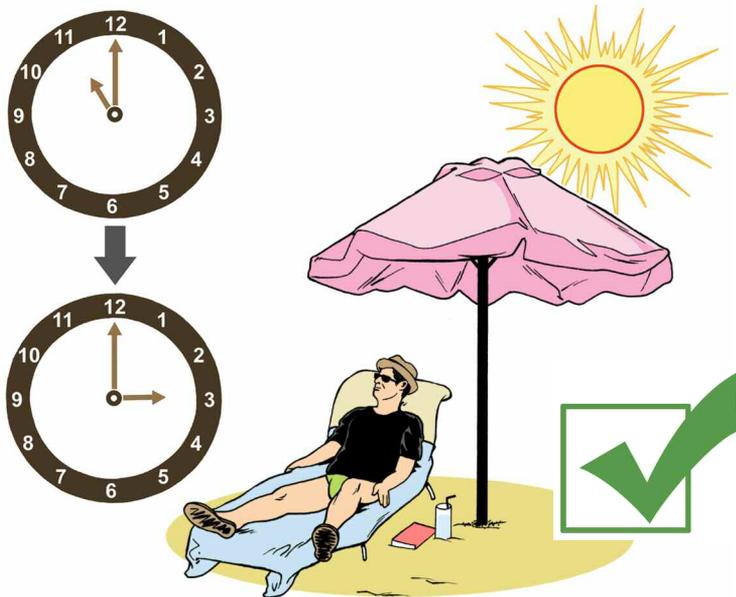

You can do things to keep yourself healthy. Keeping safe in the sun is one of these.

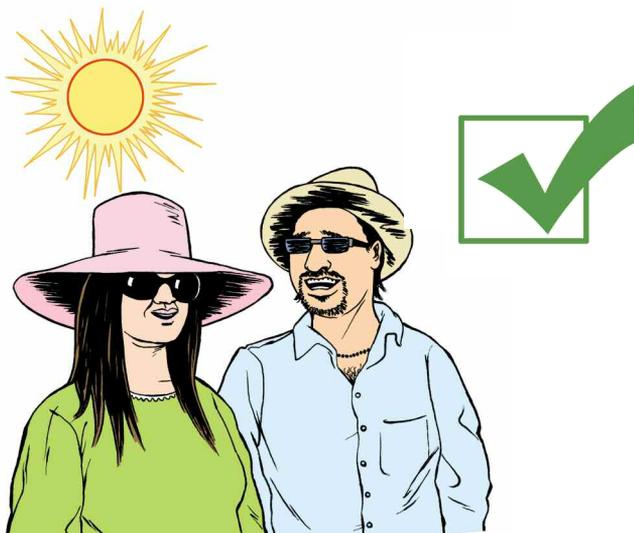

# Stay healthy - Be safe in the sun

Too much sun is the main cause of skin cancer.

You can lower your risk of getting skin cancer by:  
Staying in the shade at the hottest times of the day - between 11am and 3pm.

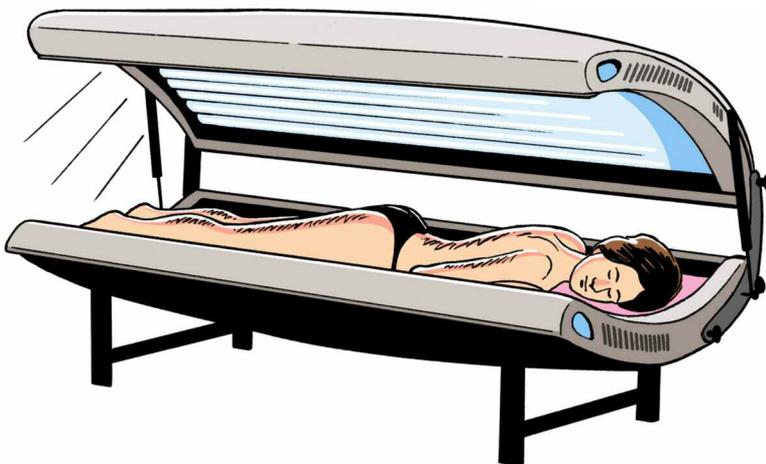

Wearing a hat, long sleeved top and sunglasses when out in the sun.

# Stay healthy - Be safe in the sun

Using at least factor 30 sun cream.

Not using sunbeds.  
These can cause skin cancer.

# Word Bank

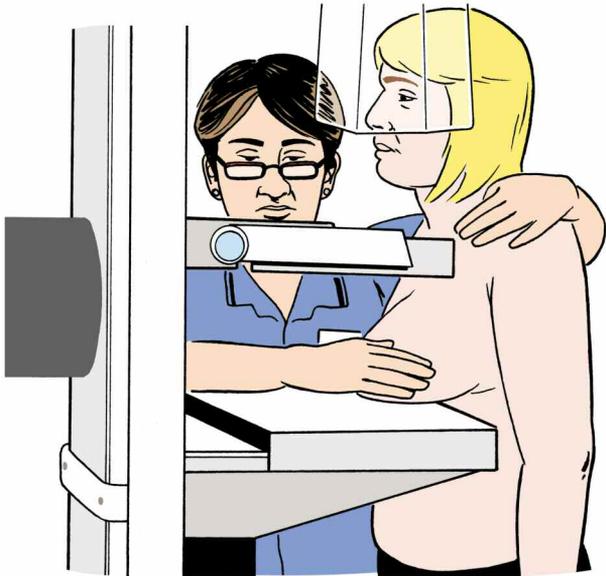

**Drawing by Tracey Harrison**

Volunteer and Illustrator with learning disabilities

# Word Bank

## Screening

These are special tests that can sometimes find cancer early.

## Symptoms

Signs in your body that tell you something is wrong, like feeling tired all the time.

# Notes

A series of horizontal dotted lines for writing notes.
