

Getting your test results

Diagnosis and Treatment

Introduction

This booklet uses easy words and pictures to help you get information about cancer.

You might want someone to help you look at the booklet so you can talk about it.

There is a Word Bank at the back of the booklet to help with hard words. Any words in **bold** you can find in the Word Bank.

This booklet can help you learn about cancer. But this is not the same as talking to your doctor. If you are worried about your health, you should talk to a doctor or nurse.

Getting your test results

Sometimes when you have a test, you will get the results on the same day.

With other tests you may have to wait for the results from your doctor.

Waiting for test results can be a worrying time.

Getting your test results

If you feel worried it is important to talk to someone about how you feel.

You may be asked to come back to see the doctor for the results of your tests.

The doctor will explain your test results to you. It is a good idea to have a family member, friend or supporter with you.

Getting your test results

The doctor may tell you that you don't have cancer.

This is very good news but you may still feel worried.

If you do have cancer, there are lots of treatments and people that can help you.

Getting your test results

Try to find someone to talk to about how you feel.
