

Coronavirus

How to get a test

If you get **symptoms of coronavirus** you can get tested.

Book a test as soon as possible. There is a new NHS website and **119** phone number you can call.

What happens?

You can ask for a test to do at home - a carer can help

Or you can ask to go to a local testing centre

An NHS worker will explain more on the phone or at the testing centre

If you feel unwell
Stay at home
Call 111 or your GP
If life is in danger call 999
