patients who are in a side room

children with learning difficulties

Why Volunteering is Great

Volunteering is fun and rewarding. It allows you to meet new people, and make new friends- it can even keep you active, mentally and physically!

Many people also volunteer to gain experience in a hospital setting, learning and sharing skills, and it's a great addition to CV's. Other people volunteer as they care and want to give something back to their community.

Whatever your reason, our team would love to hear from you.

Can you Volunteer?

Our volunteers come from a diverse range of backgrounds, bringing different skills, outlooks and knowledge, which support better patient experience.

Volunteers are vital and valued members of team SaTH and play an important role within our hospitals. We have volunteer roles available on most of our wards and clinical areas as well as our outpatient and administrative departments.

You can volunteer from age 16 onwards.

Find out more about the different programmes on our website www.sath.nhs.uk/volunteers or get in touch with the team via the contact details on the back page.
