In particular, the Committee will review the adequacy and effectiveness of:

10.2 All risk and control-related disclosure statements (in particular the Annual Governance Statement), together with an accompanying Head of Internal Audit opinion, external audit opinion or other appropriate independent assurances, prior to submission to the Board of Directors.

10.3 The underlying assurance processes that indicate the degree of achievement of corporate objectives, the effectiveness of the management of principal risks and the appropriateness of the above disclosure statements.

10.4 The policies for ensuring compliance with relevant regulatory, legal and code of conduct requirements and related reporting and self-certification.

10.6 In carrying out this work the Committee will primarily utilise the work of internal audit, external audit and other assurance functions, but will not be limited to these sources. It will also seek reports and assurances from directors and managers as appropriate, concentrating on the over-arching systems of integrated governance, risk management and internal control, together with indicators of their effectiveness.

10.7 This will be evidenced through the Committee's use of an effective Assurance Framework to guide its work and that of the audit and assurance functions that report to it.

10.8 As part of its integrated approach, the Committee will have effective relationships with other key committees to facilitate a full understanding of processes and linkages, i.e. Quality & Safety Assurance Committee, Finance & Performance Assurance Committee, Ockenden Review Assurance Committee, ~~and~~ Risk Management Committee [and Information Governance Group](#). However, these other committees must not usurp the Audit and Risk Assurance Committee's role.

10.9 Chairs of other Board committees will be invited to attend Audit & Risk Assurance Committee on an annual basis to review their committee's role in relation to the progress of risks within the Board Assurance Framework (BAF) and any relevant internal control issues. The Audit & Risk Assurance Committee will ensure that the risks within the BAF are reflected within the work plans of the committees.
