<b>Local Actions for Learning Theme 3: Obstetric Anaesthesia</b>													
4.85	Obstetric anaesthetists are an integral part of the maternity team and must be considered as such. The maternity and anaesthetic service must ensure that obstetric anaesthetists are completely integrated into the maternity multidisciplinary team and must ensure attendance and active participation in relevant team meetings, audits, Serious Incident reviews, regular ward rounds and multidisciplinary training.	Y	10/12/20	31/03/22	Evidenced and Assured	Completed	Action complete - evidenced and assured .	07/12/21	31/03/22	10/05/22	H. Flavell	A. Lawrence	<a href="#">Monday.com</a>
4.86	Obstetric anaesthetists must be proactive and make positive contributions to team learning and the improvement of clinical standards. Where there is apparent disengagement from the maternity service the obstetric anaesthetists themselves must insist they are involved and not remain on the periphery, as the review team have observed in a number of cases reviewed. Adherence to these by all obstetric anaesthetic staff working on labour ward and elsewhere, must be regularly audited. Any changes to clinical guidelines must be communicated and necessary training be provided to the midwifery and obstetric teams. This must include specific guidance for consultant attendance. Consultant anaesthetists covering labour ward or the wider maternity services must have sufficient clinical expertise and be easily contactable for all staff on delivery suite. <b>Local Actions for Learning Theme 4: Neonatal Service</b>													
4.97	Medical and nursing notes must be combined; where they are kept separately there is the potential for important information not to be shared between all members of the clinical team. Daily clinical records, particularly for patients receiving intensive care, must be recorded using a structured format to ensure all important issues are addressed.	Y	10/12/20	31/03/21	Evidenced and Assured	Completed	Action complete - evidenced and assured	31/03/21	30/04/21	14/09/21	H. Flavell	A. Lawrence	<a href="http://Monday.com">Monday.com</a>

4.99	The neonatal unit should not undertake even short term intensive care, (except while awaiting a neonatal transfer service), if they cannot make arrangements for 24 hour on-site, immediate availability at either tier 2, (a registrar grade doctor with training in neonatology or an advanced neonatal nurse practitioner) or tier 3, (a neonatal consultant), with sole duties on the neonatal unit. Y	10/12/20	31/12/23	Not Yet Delivered	On Track	Exception report accepted at the May-23 MTAC requesting deadline extensions for delivery evidence to Dec-23 and assurance evidence to Mar-24, allowing time to solve staffing issues for ANNPs to be released to visit another NICU for educational purposes.		31/03/24		H. <b>Local Actions For Learning Theme 19: Obstetric Anaesthesia</b>													
14.51	The Trust's executive team must urgently address the deficiency in consultant anaesthetic staffing affecting daytime obstetric clinical work. Minimum consultant staffing must be in line with GPAS at all times. Currently, one consultant anaesthetist provides out-of-hours support for all of the Trust's services. <b>Immediate and Essential Action 1: Workforce planning And Sustainability</b>													
The recommendations from the Health and Social Care Committee Report: The safety of maternity services in England must be implemented. We state that the Health and Social Care Select Committee view that a proportion of maternity budgets must be ring-fenced for training in every maternity unit should be implemented.													
1.1	The investment announced following our first report was welcomed. However to fund maternity and neonatal services appropriately requires a multi-year settlement to ensure the workforce is enabled to deliver consistently safe maternity and neonatal care across England.	Y	30/03/22	TBC	Not Yet Delivered	Descoped (see exception report)	Action accepted as 'Descoped' at the Feb-23 MTAC as the action is fully dependent on NHSEI funding plans. Thereby this action lies fully outside the scope of work of the MTP.		TBC		J. Jones	H. Flavell	
1.2	Minimum staffing levels should be those agreed nationally, or where there are no agreed national levels, staffing levels should be locally agreed with the LMNS. This must encompass the increased acuity and complexity of women, vulnerable families, and additional mandatory training to ensure trusts are able to safely meet organisational CNST and CQC requirements.	Y	30/03/22	30/11/23	Delivered, Not Yet Evidenced	At Risk (see exception report)	Exception report accepted at the Dec-23 MTAC requesting this action is flagged as 'at risk', due to the unlikelihood of the action meeting the Mar-24 deadline. This action has been outlined in the Ockenden Business Case, as is linked to funding, and is going through the suitable governance processes.	10/01/23	31/03/24		J. Jones	H. Flavell	
1.3	Minimum staffing levels must include a locally calculated uplift, representative of the three previous years' data, for all absences including sickness, mandatory training, annual leave and maternity leave. 1.4	The feasibility and accuracy of the BirthRate Plus tool and associated methodology must be reviewed nationally by all bodies. These bodies must include as a minimum NHSE, RCOG, RCM, RCPCH	Y	30/03/22	TBC	Not Yet Delivered	Descoped (see exception report)	Action accepted as 'Descoped' at the Feb-23 MTAC as the action fully dependent on National bodies (NHSE, RCOG, RCM and RCPCH) . Thereby this action lies fully outside the scope of work of the MTP.		TBC		J. Jones	H. Flavell	
1.5	All trusts must implement a robust preceptorship programme for newly qualified midwives (NQM), which supports supernumerary status during their orientation period and protected learning time for professional development as per the RCM (2017) position statement for this. 1.6	All NQMs must remain within the hospital setting for a minimum period of one year post qualification. This timeframe will ensure there is an opportunity to develop essential skills and competencies on which to advance their clinical practice, enhance professional confidence and resilience and provide a structured period of transition from student to accountable midwife. 1.7	All trusts must ensure all midwives responsible for coordinating labour ward attend a fully funded and nationally recognised labour ward coordinator education module, which supports advanced decision-making, learning through training in human factors, situational awareness and psychological safety, to tackle behaviours in the workforce.	Y	30/03/22	TBC	Delivered, Not Yet Evidenced	At Risk (see exception report)	Action 'rescoped' at the Jan-24 MTAC; as the programme has been approved Nationally. However, it is unlikely that all staff will complete it by the Mar-24 deadline. Hence, the action flagged as 'at risk'.		TBC		H. Flavell	A. Lawrence	
1.8	All trusts to ensure newly appointed labour ward coordinators receive an orientation package which reflects their individual needs. This must include a gap analysis of all leadership and management roles to include those held by specialist midwives and obstetric consultants. This must include supportive organisational processes and relevant practical work experience. <b>Immediate and Essential Action 2: Safe Staffing</b>													
All trusts must maintain a clear escalation and mitigation policy where maternity staffing falls below the minimum staffing levels for all health professionals.													
2.1	When agreed staffing levels across maternity services are not achieved on a day-to-day basis this should be escalated to the services' senior management team, obstetric leads, the chief nurse, medical director, and patient safety champion and LMS. 2.2	In trusts with no separate consultant rotas for obstetrics and gynaecology there must be a risk assessment and escalation protocol for periods of competing workload. 2.4	All trusts must review and suspend if necessary the existing provision and further roll out of Midwifery Continuity of Carer (MCoC) unless they can demonstrate staffing meets safe minimum requirements on all shifts. This will preserve the safety of all pregnant women and families, which is currently compromised by the unprecedented pressures that MCoC models place on maternity services already under significant strain. 2.6	The required additional time for maternity training for consultants and locally employed doctors must be provided in job plans. The protected time required will be in addition to that required for generic trust mandatory training and reviewed as training requirements change.	Y	30/03/22	31/12/23	Delivered, Not Yet Evidenced	On Track	Action moved from 'delivered, not yet evidenced' to 'not yet delivered' due to new CNST requirement, via an exception report at Sep-23 MTAC. <b>Immediate and Essential Action 3: Escalation and Accountability</b>													
Staff must be able to escalate concerns if necessary. There must be clear processes for ensuring that obstetric units are staffed by appropriately trained staff at all times. If not resident there must be clear guidelines for when a consultant obstetrician should attend.													
3.1	All trusts must develop and maintain a conflict of clinical opinion policy to support staff members in being able to escalate their clinical concerns regarding a woman's care in case of disagreement between healthcare professionals. <b>Immediate and Essential Action 11: Obstetric Anaesthesia</b>													
In addition to routine inpatient obstetric anaesthesia follow-up, a pathway for outpatient postnatal anaesthetic follow-up must be available in every trust to address incidences of physical and psychological harm. Documentation of patient assessments and interactions by obstetric anaesthetists must improve. The determination of core datasets that must be recorded during every obstetric anaesthetic intervention would result in record-keeping that more accurately reflects events. Staffing shortages in obstetric anaesthesia must be highlighted and updated guidance for the planning and provision of safe obstetric anaesthesia services throughout England must be developed.													
11.1	Conditions that merit further follow-up include, but are not limited to, postdural puncture headache, accidental awareness during general anaesthesia, intraoperative pain and the need for conversion to general anaesthesia during obstetric interventions, neurological injury relating to anaesthetic interventions, and significant failure of labour analgesia. <b>Immediate and Essential Action 14: Neonatal Care</b>													
There must be clear pathways of care for provision of neonatal care. This review endorses the recommendations from the Neonatal Critical Care Review (December 2019) to expand neonatal critical care, increase neonatal cot numbers, develop the workforce and enhance the experience of families. This work must now progress at pace.													
14.1	Neonatal and maternity care providers, commissioners and networks must agree on pathways of care including the designation of each unit and on the level of neonatal care that is provided. 14.2	Care that is outside this agreed pathway must be monitored by exception reporting (at least quarterly) and reviewed by providers and the network. The activity and results of the reviews must be reported to commissioners and the Local Maternity Neonatal Systems (LMS/LMNS) quarterly. 14.4	Neonatal Operational Delivery Networks must ensure that staff within provider units have the opportunity to share best practice and education to ensure units do not operate in isolation from their local clinical support network. For example senior medical, ANNP and nursing staff must have the opportunity for secondment to attend other appropriate network units on an occasional basis to maintain clinical expertise and avoid working in isolation.	Y	30/03/22	31/12/23	Not Yet Delivered	Off Track (see exception report)	Action 'off track' as the ANNPs have not visited another NICU for educational purposes as of yet, due to operational pressures. An exception report will be brought to the Feb-24 MTAC with new deadline proposals.		31/03/24		J. Jones	H. Flavell	<a href="#">Monday.com</a>
14.5	Each network must report to commissioners annually what measures are in place to prevent units from working in isolation.	Y	30/03/22	TBC	Delivered, Not Yet Evidenced	Descoped (see exception report)	Action approved as 'delivered, not yet evidenced' at July MTAC as the Trust has been providing the Network with all the requested reports. Action accepted as 'Descoped' at the Feb-23 MTAC as the action is now within the hands of the Network to progress. Thereby this action lies fully outside the scope of work of the MTP.	12/07/22	TBC		J. Jones	H. Flavell	<a href="#">Monday.com</a>
14.6	Neonatal providers must ensure that processes are defined which enable telephone advice and instructions to be given, where appropriate, during the course of neonatal resuscitations. When it is anticipated that the consultant is not immediately available (for example out of hours), there must be a mechanism that allows a real-time dialogue to take place directly between the consultant and the resuscitating team if required. 14.7	Neonatal practitioners must ensure that once an airway is established and other reversible causes have been excluded, appropriate early consideration is given to increasing inflation pressures to achieve adequate chest rise. Pressures above 30cmH2O in term babies, or above 25cmH2O in preterm babies may be required. The Resuscitation Council UK Newborn Life Support (NLS) Course must consider highlighting this treatment point more clearly in the NLS algorithm	Y	30/03/22	31/12/22	Evidenced and Assured	Completed	Action complete - evidenced and assured	13/09/22	30/04/23	13/09/22	H. 14.8	Neonatal providers must ensure sufficient numbers of appropriately trained consultants, tier 2 staff (middle grade doctors or ANNPs) and nurses are available in every type of neonatal unit (NICU, LNU and SCBU) to deliver safe care 24/7 in line with national service specifications.	Y	30/03/22	TBC	Not Yet Delivered	At Risk (see exception report)	Exception report accepted at the Nov-23 MTAC to move this action from 'on track' to 'at risk' as the final Mar-24 deadline will not be met. This is because the delivery of the actions is linked to the approval of further funding outlined in the new Ockenden Business Case. Impacted actions are as follows: IEA 4.3, IEA 8.1, IEA 11.1, IEA 14.8, LAFL 14.32, LAFL 14.52, LAFL 14.57 and LAFL 14.59.		TBC		H. Flavell	C. McInnes, A.Sizer	<a href="#">Monday.com</a>

<b>Immediate and Essential Action 15: Supporting Families</b>													
Care and consideration of the mental health and wellbeing of mothers, their partners and the family as a whole must be integral to all aspects of maternity service provision. Maternity care providers must actively engage with the local community and those with lived experience, to deliver services that are informed by what women and their families say they need from their care													
15.1	There must be robust mechanisms for the identification of psychological distress, and clear pathways for women and their families to access emotional support and specialist psychological support as appropriate. 15.2	Access to timely emotional and psychological support should be without the need for formal mental health diagnosis, as psychological distress can be a normal reaction to adverse experiences.
