Marsha	Addison	Bank Audiology Science Manager	Financial interests	Loyalty interests	DECLARATION ON BEHALF OF AUDIOLOGY DEPARTMENT NOT PERSONAL: In Adult Audiology, our hearing aid supplier, Oticon (who supply approx 90% of our hearing aids) have offered to print a couple of our information leaflets for our patients. The leaflets would include our Trust logos and the content of the leaflet would be written by both the Trust and the supplier (although mostly the supplier due to images that they have and wording they have used regarding patient hearing with other Trusts). There would be no logos from the supplier.	03/08/2025		This printing would continue in the future Regarding the current leaflets we print, it is the cost of the paper £9.75 for case 2500 and printing invoice from Apogee £438.65 + VAT There are no terms and conditions related to this offer and Oticon have confirmed this to. The hearing aid contract we have with this company is historically long standing and separate from this. Oticon will supply the printed leaflets as a when we need them. The reason/benefits of accepting this offer is that it will improve patient experience as patients will receive well designed hearing literature in a standardised format which uses good, clear fit for purpose information and images. It will be a cost saving for the Trust as these leaflets will be provided as and when needed and reduce printing cost.

Arif	Razzak	Dental Specialty Doctor	Indirect interests	Outside employment	I am planning on taking part in a project and in line with hospital policy I am informing you as my line manager should there be any future conflict of interest. The role is: dental external expert QA consultant for Immersify education (a healthcare ed-tech company), which specialises in lessons, augmented reality and assessments using virtual reality. Although I aim to do the work for this outside of work hours, and am not being taken on in a paid role, there is the potential in the future that I may be paid to take part in development processes behind this (potentially a few hours a month). My reasoning for looking into this project is the educational and research role exploring virtual reality training which I think will benefit my educational role at PRH as well as my development as a clinician.	28/08/2024	27/08/2025	I haven't got a "termination date" as of yet.
